Prasanna Kumar M

Computer Science Engineering Student | Software Development | AI & GenAI
Chennai, Tamil Nadu, India | +91 9344189715 | pawan1142006@gmail.com | github.com/prasanna-237

Summary

Computer Science Engineering student with hands-on experience in software development, full-stack applications, AI-powered systems, and data-driven solutions. Strong foundation in Java, Python, SQL, DSA, OOP, and DBMS, with experience building REST APIs, analytics applications, document-processing workflows, and LLM-powered solutions.

Technical Skills

Languages	Java, Python, C, SQL, JavaScript
Development	React, Node.js, Express.js, FastAPI, REST APIs
AI & GenAI	Generative AI, LLMs, RAG, NLP, Embeddings, Prompt Engineering
Databases & Cloud	MySQL, PostgreSQL, MongoDB, Azure, Azure OpenAI
Core CS	DSA, OOP, DBMS, Operating Systems, Computer Networks
Tools	Git, GitHub, Postman, VS Code

Experience

Firstsource Solutions July 2026 – October 2026
Software Intern *Chennai, India*

- Contributed to enterprise software development, testing, data processing, and application workflows within the Enterprise Transformation Office.
- Worked on an AI-powered retention intelligence application involving web development, backend services, databases, data ingestion, and AI-based document analysis.
- Collaborated with team members in a remote development environment while supporting software development and testing activities.

Projects

People Intel – Retention Intelligence Platform | *JavaScript, Node.js, Express.js, Sequelize, MySQL, Azure OpenAI*

- Developed a full-stack platform for analyzing employee retention data, feedback, and organizational trends.
- Built analytics dashboards covering retention health, intent to stay, flight risk, retention drivers, and employee voice.
- Implemented CSV and document ingestion for PDF, DOCX, TXT, and MSG files with database persistence and duplicate-upload handling.
- Integrated Azure OpenAI to analyze employee feedback and documents for sentiment, themes, concerns, risk signals, insights, and recommendations.
- Developed REST APIs with filtering and comparison capabilities across organizational dimensions such as country, location, unit, grade, and tenure.

AI Document Intelligence & RAG Assistant | *Python, FastAPI, LangChain, FAISS, Azure OpenAI*

- Developed an AI-powered document question-answering application using Retrieval-Augmented Generation.
- Built a pipeline for document extraction, text chunking, embeddings, and semantic retrieval using FAISS.
- Developed REST APIs for document upload, indexing, retrieval, and question answering.
- Generated context-aware LLM responses using relevant information retrieved from uploaded documents.

Education

Rajalakshmi Engineering College 2023 – 2027
B.E. Computer Science and Engineering, CGPA: 8.1

Certifications

Generative AI Essentials: Using LLMs to Work with Data – IBM SkillsBuild
AI Fundamentals – IBM SkillsBuild
Back End Development and APIs – freeCodeCamp
